

Dear friends,

Even in the middle of these trying times, I trust that this message will find you and your family in the best of health and happiness.

Having a life-time of experience in battling difficult challenges in the CRPF, i am convinced that you would be handling the COVID-19 crisis just as prudently. Battle-honed heroes like you will know how to hold your ground judiciously in the middle of this on-going war against the COVID -19 virus. That I'm confident of.

Yet, sometimes life takes a difficult turn where we find ourself in a quandary. Should you find yourself struggling in any such situation, pl give us the chance to hold your hand to help overcome it. We would be honoured to serve our elders .Should the need arise, pl look for the nearest CRPF set-up for any support. Pl do not forget, we are an extended family.

Wish you and your family the best of health and wellness.

Warm regards.

Dr A P Maheshwari,

DG, CRPF
