SUGGESTIONS RELATED TO IMPROVEMENT OF FIRING OF TRAINEES

01.	Instructors trained in "Shooting skill course" will conduct firing of trainees during the course.
02	More emphasis to be given to ABCDEFG drill at the firing range. A. Actual fire B. Buddy C. Cone fire D. Dismantling E. Emergency. F. Freezing G. Ground(use of ground)
03	A FIRING DATA CARD on the lines of health card is recommended to be maintained by each trainee based on which efforts should be made to improve their firing skill.
04	After introductory fire, BALL & DUMMY exercises are recommended to be carried out to segregate trainees based on the mistakes committed like FLINCH, BUCK, JERK. Trainees should be divided into groups, based on particular mistakes being committed and accordingly, relevant corrective exercises be administered.
06	personnel to be allowed for firing practices at one range in a day with proper dress and Equipment.
07	Weapon training, Musketry & firing practices should be done religiously.
08	Dry practice on blank target be carried out, one week prior to actual practice, so that the firer may understand the method of achieving the correct sight alignment and its importance.
