

### **300 people benefit from CRPF's medical camp in Srinagar**

Srinagar Sector of CRPF, in assistance with Sathya Sai Seva Organisation, set up two free medical camps for the citizens at Talpora Panchayat (Badgam) and Latipora, Bud Dal, (Rainawari, Srinagar). The medical camp had special focus on women and children's health. 300 odd beneficiaries were given free of cost consultation and medication at both the camps with robust follow up plans in place. Locals at both these places turned out in huge numbers to avail of the services of specialists and super specialists who flew in from across the country and joined hands with the medical officers of CRPF to serve the brethren in Kashmir. Local elected representatives at both the locations praised this selfless endeavour of CRPF and SSSO and remarked that this drive would go a long way in strengthening the humane bond.

CRPF, with its ethos of reaching out to the needy in the areas of its deployment, is putting concerted efforts at mitigating people's problems in numerous ways. While the Madadgaar is dedicated to attend to the 'calls for help, from people of Jammu and Kashmir, all units and institutions are contributing in lending a helping hand to the society. Not long back, the Srinagar Sector of CRPF with assistance from Sathya Sai Seva Organisation organised a more than a week long ration distribution drive.
