Brief	<p>In a major success for security forces, the troops recovered a huge cache of arms and ammunition from Kasblari Forest in Mendhar region of Poonch on 09 August 2021. A joint search operation was launched by the troops of 72 Battalion CRPF, BSF, SOG Poonch, and RR. As the troops carefully scanned the area, they busted a concealed hideout which yielded a recovery of arms and ammunition which can only be termed as warlike. The recovery included 2 AK 47 rifles along with 04 magazines and 257 rounds of live ammunition, a Chinese pistol with 10 magazines and 68 rounds, 23 live rounds of 7.65 mm, 4 Chinese grenades, 13 detonators, 1 Set I Com, 2 mobile phones, and other miscellaneous items. It is the availability of arms and ammunition which serves as the lifeline for the nefarious designs of terrorists who carry out heinous attacks on security forces and civilians. Recoveries such as these, deprive the terrorists of the supplies required to sustain their agenda of terror and violence.</p>
