E-Learning Portal:

This online platform, hosted on the CRPF Data Centre, provides access to various training courses and learning materials.

Features:

- Course Creation: Training institutions and relevant CRPF branches develop and upload course content.
- Accessibility: The portal is accessible through the CRPF intranet (SELO) and VPN.
- Centralized E-Library: Functions as a central repository for training materials, accessible to all CRPF training institutes.
- Course Offerings: Examples include E-Office Guide, PPMS Guide, cybersecurity awareness, computer networking essentials, and counter Improvised Explosive Device (IED) training.

Benefits:

- Improved access to training materials for CRPF personnel across locations.
- Ability to deliver standardized and up-to-date training content efficiently.
- Potential for self-paced learning and knowledge reinforcement.
