SANTOS (System for Annual Transfer Over Software):

SANTOS is an in-house developed software which automates annual transfer processes for CRPF personnel, eliminating manual calculations and paperwork.

Features:

- Data-Driven Transfers: Uses individual data to calculate factors like tenure, hardship score, and vacancies to generate transfer lists.
- Sambhav Integration: Integrates with the Sambhav app for information dissemination, allowing personnel to express transfer preferences and receive transfer orders electronically.

Benefits:

- Faster and more efficient transfer completion within target timelines.
- Increased transparency in transfer decisions based on data analysis.
- Improved convenience for personnel through the Sambhav app integration.
